Corner without Post Technical Data Sheet

## Checkmate Checkline II Corner Bracket

The corner bracket is mounted onto the adjustment body and is used to support the 8mm wire rope. This assembly is fixed directly onto the required surface where a post assembly is not required. Corner tubes are required to complete the assembly, normally 45°, but other versions are available to suit the wall angle. This bracket has the ability to be rotated through 180° and set at intervals of 30°.

# CHECKLINE II

SAFETY BY DESIGN

## principal materials

- ▶ **Adjustment Body & Intermediate Bracket**  
Cast Stainless Steel - Electro Polished
- ▶ **M10 Cap Head Bolt**
