

TECHNICAL DATA SHEET

TOPFIX CONCRETE BASE PLATE

TDS158

Checkmate Checkline II Concrete Base Plate

The Checkmate Top Fix Concrete Base Plate has been specially designed to attach to concrete or Bitumen covered concrete roofs.

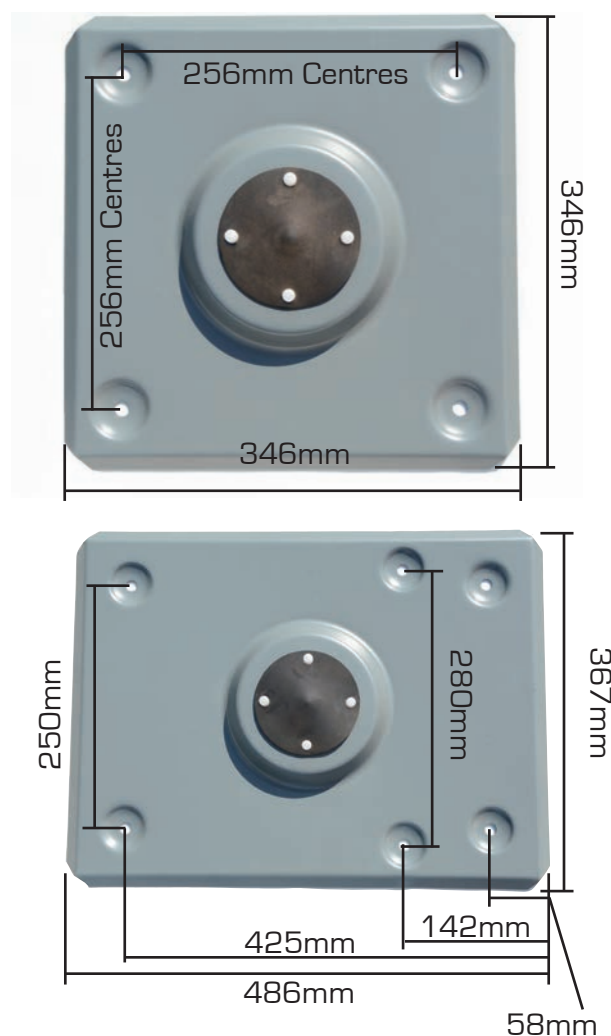

Two standard variants are available offering either 4 or 6 fixing holes, however some custom fit solutions are available. The 6 hole plate is to be used for end corners and ends, with the 4 hole plate used for intermediates only. For any queries do not hesitate to contact the Checkmate technical team.

Supplied with sealing gasket

CHECKLINE II

SAFETY BY DESIGN
