3M™ Speedglas™ Welding Helmet 9100 Series with 3M™ Jupiter™ Powered Air Respirator.

We have now approved and received CE certificates for the following Welding headtops to be used with 3M™Jupiter™ Powered Air Respirator:

3M™ Speedglas™ Welding Helmet 9100 Air
3M™ Speedglas™ Helmet 9100 FX Air
3M™ Speedglas™ & Safety Helmet 9100 MP

Note: The combination is only approved with the 3M™ Versaflo™ BT-Series Breathing Tubes. No packouts available. The headtops and welding filter needs to be ordered from the Welding commodity and the turbo unit and breathing tubes from the P&SA Commodity.

3M™ HT-622/ HT-639 Welding Helmet with 3M™ Adflo™ Powered Air Respirator.

HT-622

HT-639

Approval is in place for above headtops used together with Adflo Powered Air Respirator.

Note: To meet standard requirements for noise HT-622 need noise reducing air hose (part number 834008) when combined to Adflo that has gas filter added to particle filtration.

HT-639 needs noise reducing air hose both when Adflo has particle filtration only or when having particle/gas filtration.
