

EnSafe Ltd. is the producer of evacuation chairs in Europe. Founders of the company are professional firefighters, practitioners and above all, enthusiasts in the field of fire safety and ensuring of safe evacuation from buildings. Extensive knowledge and practical experience enable a creation of new solutions, including evacuation chairs which are an ideal solution for the evacuation of people with special needs. The company has implemented the BSI quality management system (ISO 9001: 2015). Our chairs are safe for users, what is confirmed by tests and certificates including TÜV „Checked Product”. We are a winner of „Accessibility leader of priority industries” competition as well as holder of international invention and innovation fair „INTARG 2021” platinum award.
