

PRODUCT NUMBER: 1001643
Airvisor DAVK-0004

Översikt

Reference Number

1001643

Product Type

Andningsskydd

Range

Supplied Air Respirators

Line

Loose fitting visors

Brand

Sperian

Brand formerly known as

WILLSON

Industry

- Aviation
- Foundry
- Industrial Cleaning
- Iron and steel industry
- Medical and Pharmaceutical
- Metal steel
- Utilities
- Wood Industries
- Laboratory
- Ship Building
- Industry
- Automotive and Part Manufacturer

Product Use

For use in general industrial operations, e.g. woodworking, handling of dusts, grinding and polishing of metals, plastics etc. where the respirator is intended for use without any auxilliary air tool connected to it.

An air tool can be used, but the operator must use separate air hoses to supply the respirator and the air tool.

Features & Benefits

Feature

The waistbelt contains a speacial rolling diaphragm regulator which controls the flow of air at a constant rate, independent of variations in factory airline supply pressure.

Benefit

Airflow is maintained above 180 l/min for maximum comfort, security and safety.

Feature

The waistbelt contains a carbon filter element which removes any odours from the air which is delivered to the user.

Benefit

Comfort and pleasure in use.

Feature

Lightweight headpiece with a wide field of vision, supplied with a polycarbonate visor (EN166 39-B) specially designed for general industrial use.

Benefit

Maximum usability and safety with minimum fatigue. Maximum impact protection from flying particles, low running costs.

Feature

Disposable visor covers are used to protect the main visor.

Benefit

Longer service life and the maintenance of accurate vision. Lower overall running costs.

Technical Description

Mask

Material

Main shell components - Polypropylene Face seal - Open cell foam

Visor Screen

Impact resistant

Visor Screen Material

Polycarbonate

Visor Screen Covers

Polyester (anti-static coating)

Head and Neck Cover

Non-woven polypropylene

Air Diffuser

Open cell foam

Belt

Belt or Harness

Waistbelt

Material

Woven polyester

Hose

Hose

Food grade PVC material complete with High Flow Quick Release connectors

Length Hose

Selection from 3.5m to 30m

Compressed Airline Infiltration System

Wall Model

Maintenance**Storage Information**

Store in the bag provided, in a cool dry area.

Care Instructions

Remove dust and dirt from the apparatus using a damp cloth moistened with a mild disinfectant or liquid soap solution. Do not immerse the apparatus. Do not use a solvent or an undiluted detergent which might damage the apparatus. Do not use an abrasive cleaning product which might damage the surface of the apparatus or scratch the visor. Allow to dry fully in a well ventilated area away from direct sunlight and sources of high temperature or radiant heat. Place apparatus in storage bag after cleaning and disinfection.
